

Edgefield Advertiser.

For the Legislature:

Having received the next highest vote to a successful candidate, by a close margin, in the last primary, the same being a majority of the votes cast, and feeling that I am the logical person now for this position, I hereby announce myself as a candidate to fill the vacancy now existing in the House of Representatives for Edgefield county.

M. P. Wells.

Jan. 20, 1915.

I am a candidate for the position in the legislature made vacant by the death of the lamented Hon. J. P. DeLaughter. I will, if elected, support the bill now pending in the General Assembly to submit to the democratic voters of the State the question of State-wide Prohibition.

S. McG. Simkins.

I take this means of announcing to the people of Edgefield county that I am a candidate for the vacancy in the House of Representatives caused by the death of Hon. J. P. DeLaughter. If elected I will to the best of my ability represent the people of every section of the county.

J. Lucas Walker.

Johnston, S. C.

Augusta Benefitted by Close of Blease Administration.

One result of the downfall of Bleaseism came on Saturday.

Heretofore, Augusta had men skipped over to Hamburg or North Augusta, and from the Carolina side gave Augusta officers the "merry bal ha!" Governor Cole L. protected them.

Saturday two of them (they had escaped from the city stockade and having been in prison, had not seen the newspapers and didn't know that Colonel Cole, the merry old soul, had quit) skipped over to North Augusta.

Chief Elliott telephoned magistrate Hahn. The Carolina officer flushed the escapes and compelled them to hot-foot it across the North Augusta bridge—and, as arranged, into the arms of two Augusta policemen. They are again "doing time."

Except during the Blease regime, Carolina has always co-operated with Augusta in these matters.

There was the time when we may have gone too far. But our officers never suffered. For instance when Chief of Police Hood hired an engine and, proceeding down the Port Royal road (the Charleston & Western Carolina now), brought back two men who had robbed the National Bank of Augusta of a roll.

Oh, yes, the bank robbers' lawyers were there, and no Georgia officer could take a man from Carolina without extradition papers, but Chief Hood was a man of action. He seized the robbers, flung them on the engine and told the engineer to "throw her wide open" back to Augusta.

Warrants charging Chief Hood with kidnapping were sworn out, but that was the last of that feature of it.

South Carolina does not want to harbor Augusta bad men and protect them after their wrong doing.—Augusta Chronicle.

Union Meeting.

The union meeting of the third division will meet with Parkville Baptist church January 30-31.

11:00: Devotional by moderator.
11:30: Enrollment of delegates with reports.

1st Query: Church loyalty, J C Morgan, Graves McDaniel.

2nd Query: General condition of our country churches, W R Parks, J P Nixon.

12:30: Adjourn for dinner.

3rd Query: Are we giving for the advancement of God's kingdom as he has prospered us, J M Bussey, J C Harvelly, Jim Garnett.

4th Query: Having a divine purpose in our christian life, P H Bussey, Luther Bracknell.

Sunday morning Sunday school in usual order.

GOVERNOR RICHARD I. MANNING

HEALTH HINTS.

What Anger Costs.

Do you know what it costs you to become angry? Every time a man gets angry he shortens his life so many minutes or days, perhaps even years. A great deal depends on the intensity of his anger. Every time we become angry our vitality shrinks so much in proportion for every outburst. After even the most artfully suppressed signs of bad temper our vitality becomes smaller and smaller, until finally nothing is left. The moral deduced from the advancement of this latest theory in medicine is, of course, that we should never allow ourselves to become angry if we value our health and life.

Anger is a certain kind of cerebral (brain) excitement. The hypersthenic (very strong) subject is always on its verge, while the neurasthenic (nervously debilitated) becomes infuriated only by a sudden bound of reaction excited from without. But at the moment when they are let loose the two are alike, save that the strong man is a blinder brute, while the weak man is somewhat of an actor, and seems to aim at effect.

All emotions are due to disorders of the circulation of the blood, and anger, in particular, to an intense dilation of the small arteries of the brain. Redness and swelling of the face are constant signs of anger, and anger is a state of hypernervation. The muscular fibers surrounding the arteries in which the blood circulates, and which form a continuous sheath for them, are tightened in proportion to our anger. The caliber of the arterial tube diminished and then, the blood being under a high pressure, the watery part is driven back into the surrounding tissues and the red globules, diluted in a less quantity of liquid, appear far more numerous in the field of the microscope. The concentration of the blood and rise in arterial pressure I consider to be almost always present in case of anger. I have found them whenever I have been able to examine a patient.

Let us form a clear idea of all that there is in a fit of anger—vain expenditure of effort, aimless movements, energy spent in biting the fists, stamping on the ground, kicking against doors, or tearing up a book. All this clearly indicates a mental condition of no high order. At every stage we recognize more clearly that the problem of anger is a problem of cerebral mechanics. In a condition of nervous excitement all our energies are at a high pitch. The heart sends to every part of the body concentrated blood, extraordinary rich in globules, which utilizes itself instantaneously in the tissues; our organic combustion takes place with almost doubled intensity, our sensibility is considerably excited. We are too much alive.

Variations of temper are variations of energy, of muscular tonics. One is sad or timid because one is too weak; angry because one is too strong. Oscillations of the mind are caused by the excitement produced by the contact of our nerves of sensibility. There is a short circuit in our nerves, followed by a ruddy increased muscular energy, the heart's power of contraction, the blood pressure in the arteries and the activity of nutrition.

Now, the immense work performed by the brain during the anger crisis is so much work lost, worse than lost, harmful; apart from the evil it may do to its object, who may be killed by it, it is harmful to the person who gets into the rage. We are degraded by anger; not only does it humiliate us in the eyes of others, but it leaves us dejected and exhausted.—Prof. John Lange.

JOHNSTON LETTER.

(Continued from First Page.)

making the afternoon pleasant for the guests.

The Mary Ann Buie chapter, U. D. C., held the January meeting in the home of Mrs. F. M. Boyd and about two hours were occupied with business, there being various reports of committees and officers. To facilitate the work of the chapter and to create interest committee work is excellent, 50 more iron crosses have been purchased by chapter to mark the veterans graves and the placing of these was discussed. A record of the lives of the veterans of camp McHenry who passed over the river during 1914, is being prepared by the recording secretary and will at an early date appear in The Veteran. As a means to reimburse the treasury, the movies will be brought into service, that have been giving good attractions at the opera house, and at an early date, a matinee and evening show will be held under the auspices of the chapter. Along historical lines the chapter is doing splendid work and Lee's and Jackson's birthdays will be celebrated on Thursday afternoon, at 3:30 o'clock in the home of Mrs. Albert Dozier.

The Emily Geiger chapter, D. A. R., met with Miss Mallie Waters on Monday afternoon, the chief matter of business being the placing of a flag on the new school building. They had hoped to do this on Washington's birthday, but being unable they hope to materialize their plans on flag day. The subject for the afternoon was "Colonial literature," several papers being given. During the social hour the hostess assisted by Mrs. M. W. Crouch served a salad course, followed by coffee with black and white fruit cake.

Mrs. J. R. Kelly and Miss Daisy Brockington were hostesses for a charming afternoon party on Tuesday, the occasion being held in the home of the former. Ferns and palms were the decorations and in the rear parlor, a huge palm occupied the center and around this were the tables for progressive games the score cards being the work of the hostess in water color. The hours proved most delightful ones for the guests and an elaborate salad course with coffee, was served by Misses Frances and Bessie Ford Turner.

Miss Pet LaGrone has gone to Rock Hill to visit friends.

Mr. Luther Lott of Americus, Ga., has been here for a few days visiting relatives.

Miss Bertha Stahn of Chester is expected soon to visit Mrs. F. M. Boyd.

Mr. J. L. Oxner of Hephzibah was here last week on a sad mission coming to attend the burial of his mother Mrs. Smith, died at the home of her daughter Mrs. Wertz, near Mt. Willing, and the interment took place in the family burying ground near by.

The inclement weather of last Tuesday did not prevent the meeting of the New Century Club, which was in the home of Mrs. J. W. Marsh, but with a two thirds membership, a most enjoyable meeting was had. Mrs. Marsh is an ideal hostess and gave all a cordial welcome. After all business, the lesson study of Juvenile writers was taken up. The authors being studied were Eugene Field, James Whitcomb Riley, Louisa Alcott and Kate Douglas Wiggin, those on the program being Mesdames A. T. King, H. D. Grant, James White, C. D. Kenny, P. B. Waters and J. W. Marsh, and Misses Clara Sawyer, Alma Woodward and Zena Payne. Mrs. F. M. Boyd sang "Little boy blue," (Field), and Miss Gladys Sawyer gave a piano solo. The hostess served a delightful sweet course followed by coffee and cheese wafers. The table was covered with a handsome lace cover and the centerpiece was of lilies.

Question.

Church Members:—Do you not think that when your pastor takes several days out of a week to prepare a sermon to preach on Sunday for your soul's edification, that it is as little as you can do, out of regard to his feelings, to say nothing about your religious duty, to be present? Do you think that you could conscientiously kneel down reverently on Sunday morning and offer a prayer like this: "Lord, it is raining to-day, and I beg to be excused from attending services. It is true I do not allow rain to keep me from business or pleasure, but I pray thee to excuse me this rainy day?" If you can do this, you are excused. No, it is a deep-seated trouble, and there is no cure for it but SPIRITUALITY.

E. C. B.

Card of Thanks.

Feeling under lasting obligations to our friends for kind assistance rendered at the burning of our home, also in rebuilding same we wish to extend to each one, both white and colored our sincerest thanks.

Mr. Sam Agner and Family.
Modoc, S. C.

United States Civil Service Examination For Rural Carrier.

Places of examination, Edgefield, South Carolina.

Date of examination, February 13, 1915.

County for which held, Edgefield. Vacancy at Parkville, S. C.

The United States civil service commission announces an open competitive examination on the date and at the examination places named above, as a result of which it is expected to make certification to fill the vacancy in the position of rural carrier at the place named above and other vacancies as they may occur on rural routes at post offices in the above named county, unless it is found to be in the interest of the service to fill any vacancy by re-instatement, transfer or promotion. The compensation of a rural carrier is based upon the length of the route and ranges from \$484 to \$1,200 per year.

Age, 18 to 55, on the date of the examination. The maximum age is waived in cases of persons honorably discharged from the United States military or naval service.

An applicant must have his actual domicile in the territory supplied by a post office in the county for which the examination is announced.

The examination is open to all male citizens of the United States who can comply with the requirements.

Application form 1341, and full information concerning the requirements of the examination, can be secured from the secretary of the local examining board or the postmaster at any of the examination points named above, or from the United States civil service commission, Washington, D. C.

Applications should be properly executed and filed with the commission at Washington. As examination papers are shipped direct from the commission to the places of examination, it is necessary that applications be received in ample time to arrange for the examination desired at the place indicated by the applicant. The commission will therefore arrange to examine any applicant whose application is received in time to permit the shipment of the necessary papers.

An eligible register for the position of rural letter carrier for each county in which the post office that supplies his home is situated. As a result of such examination he may become eligible to appointment as rural carrier at any post office in such county. A rural letter carrier after one year's satisfactory service may be transferred to the position of clerk or carrier in a first or second class post office, to the position of railway mail clerk, or to other positions in the classified service, subject to such examination as may be required by the civil service rules.

John A. McIlhenny,
President.

Free Flower Seed. Hastings' Catalogue Tells You About It

If you are engaged in farming, or if you plant only vegetables or flowers, you cannot afford to be without the big catalogue published fresh and new every year by the great Southern seed house, H. G. Hastings & Company, of Atlanta, Ga., and sent absolutely free, postage paid, to all who write for it, mentioning the name of this newspaper.

In this catalogue we tell you of a splendid offer of free flower seed to all our customers, five magnificent varieties that mean beauty about your home and a pleasure to wives and daughters that nothing else can give. This catalogue tells you, too, about our big cash prize offer to the Corn Club boys of your state. It tells all about our fine yielding varieties of corn and cotton—the kind we grow on our own 3,200 acre farm. It tells about the best seeds of all kinds for planting in the South. It should be in every Southern home. Write today and let us send it to you.—H. G. HASTINGS & CO., Atlanta, Ga.—Adv.
